

Cool Rooms & Freezer Rooms

Coolrooms & Freezer Rooms for :

- ✧ Industry
- ✧ Process Cooling & Freezing
- ✧ Warehousing & Storage
- ✧ Products

Refrigerated rooms can be provided for temperatures ranging from +40°C to -40°C with the control of relative humidity to suit the products being processed or stored.

Prefabricated insulated panels are used for the erection of refrigerated rooms.

Refrigerated rooms can be provided as a complete structure with roof and drainage.

Concrete and/or insulated floors can be installed to suit the required temperature and application.

Sliding and/or hinged doors with clear strip curtains can be provided to suit your requirements.

Refrigeration systems with room temperature control can be engineered to reduce the product temperature or as a holding room.

Defrosting system is dependant on the temperature required : Hot Gas; Air; Electric and Water systems are available.

Non-Ozone depleting refrigerants are used in “**HEUCH**” Refrigeration systems.

Select “HEUCH REFRIGERATION” for :

- Any Application.
- Engineered Systems
- Reliable Equipment
- Engineering experience supporting each installation since 1970.
- Turn Key’ Installation.
- Full Service & Maintenance
